“Postharvest – biology, physiology and technology”

Call for Papers

Ornamental Horticulture is seeking submissions for a special edition titled "Postharvest – biology, physiology and technology". This issue seeks contributions that explore the most recent studies in flower, foliage, and ornamental plant postharvest. Specifically, it searches for manuscripts that present advances, new techniques and technologies, products, processes, analysis, and applications in flower, foliage, and all ornamental plant postharvest. Since the environmental sustainability is nowadays very important to all areas of knowledge, papers that focus on it will be appreciated, as well as studies with adaptation under different environmental stresses.

Thus, Ornamental Horticulture journal seeks high quality original scientific and technical papers from national and international experts in horticulture, with the purpose of summarizing recent achievements in these fields. Potential topics regarding this special issue could include, but are not limited to:

Potential topics:

- Physiological and biochemical events;
- Postharvest operations;
- Growth regulators;
- Plant physiology and molecular;
- Digital images, spectroscopy;
- VIS, NIR, IR;
- Transportation and commercialization;
- Microorganisms;
- Chemical and biological control;
- Aesthetic and sensory quality;

- Luminosity and shading;
- Biotechnology;
- Pests and diseases;
- Economic analysis;
- Postharvest technology;
- Conservation products;
- Storage;
- New products for conservation;
- Plant nutrition and pre-harvest conditions and postharvest;
- Nanotechnology.

Important Dates

Full paper submission deadline: **March 12, 2020**

Publication

Ornamental Horticulture, v.27, n.3, 2021

Submission Procedures
