"Innovations in Horticulture"

Call for Papers

Ornamental Horticulture is seeking submissions for a Special Issue, entitled "Innovations in Horticulture". The Special Issue seeks contributions that explore innovations and new information involving ornamental and medicinal plants, and gardens.

Specifically, it seeks manuscripts that view how are the innovations in this areas, considering both plants for cut (including flowers and foliages), plants use as medicinal, condiments, and aromatics. It is important to consider the biotechnology areas and how it has been widely used to improve plant development. Also in vitro propagation and plant transformation are important aspects, besides the development of new crops and varieties. Aspects that are involved in plant development as soil and nutrition, pests, diseases, postharvest, commercialization and others are welcome to this issue.

Since the environmental sustainable is nowadays very important to all areas of knowledge, papers that focus on it will be appreciated. As well as studies with adaptation under different environmental stresses, identifying varieties suited to a changing climate.

Otherwise innovations can be performed on gardening showing new possibilities on design, elements, and new species that can be used. How come innovations can contribute to garden management or for the new uses for the public spaces are important topics in landscaping area.

We seek a very high-quality original Scientific, Technical or Review papers. This special issue aims to provide a podium for papers from national and international experts in horticulture, with the aim of summarizing recent achievements in these fields. Potential topics regarding this special issue could include, but are not limited to:

- Plant micropropagation and transformation;
- Plant propagation;
- Plant breeding and new crops/varieties;
- Plant physiology;

- Soil and plant nutrition;
- Commercialization;
- Pests and plant diseases;
- Postharvest technology;
- Plant growth and development;
- Medicinal, condimental and aromatic plants;
- Medicinal properties;
- Gardening;
- Landscape and landscaping

Important Dates:

- Full paper submission deadline: June 14th, 2017
- Review decision: July, 14th 2017
- Final version submission: July, 31th 2017

Submission Procedures:
